Comments.

- (1) Probably exchange movements of elements of the 25th RL Brig, possibly regiment.
- (2) An AA unit of the 9th Cds Tank Div is believed to have loaded on the train. It possibly was the unit which moved to Altengrabow on 17 September. See [redacted]
- (3) The three trains, which are confirmed [redacted] carried components of the 31st AAA Div. They are possibly part of the movement of troops for field exercises, which are to be conducted in the Lötzing Heath area and to the east during the second half of October. [redacted]
- (4) The unloading of these units of the Fourth Cds Mecz Army in Eberswalde was previously reported [redacted]. It is rather definitely believed that they participated in the field exercises which were held in the Stassfurt-Halberstadt area in the second half of September. [redacted] indicated that the same units were to return to the above area for field exercises at about 15 October.
- (5) The loading of these trains on 6 October in Neuruppin was previously reported [redacted]. The trains carried a unit of the 12th Cds Tank Div. See [redacted]
- (6) The two trains carrying components of the 1st Mecz Div were previously observed in Doberitz [redacted]
- (7) The train probably carried an unidentified AAA unit from Hamburg which returned to its post upon completion of its firing practices at the Wustrow AA range.
- (8) On 27 September, a component of the 6th (?) Cds AAA Div [redacted] was loaded in Chemnitz and went to Koenigsbrueck. The unit possibly returned to its permanent post on 5 October.
- (9) The volume of daily leave traffic during the period from 25 to 30 September was 190 soldiers to, and 470 from, Brest-Litovsk; and from 1 to 8 October, 380 and 520 respectively.
